

**Supplemental one-to-one
recreational programming for
residents of care facilities.**

Promoting Independence and Choice

Is this right for my family?

Independence, health, fulfillment, choice

What is a Recreation Therapist?

An RT is a university- and college-trained health professional who helps people engage in productive and meaningful leisure time. The RT acts as instructor, facilitator, educator and personal coach all at once.

Why pay for Therapeutic Recreation?

TR is a highly proactive profession that goes far beyond the abilities of companion services. TR employs a huge variety of techniques and resources, from physical activity to music, in order to design successful programs that improve quality of living.

Who should use Therapeutic Recreation?

Anyone who could be getting a bit more out of life, but needs help to find out how and ongoing support to do it.

The core objective of any care facility is to provide the highest quality of care possible. **Sometimes, residents and their families can benefit from more.**

A supplemental provider can tailor one-to-one services to exactly match a resident's evolving needs.

Do you:

- **Wish that you could do more, but cannot always find the time?**
- **Want extra time spent with your family member?**
- **Want this time to be proactive and therapeutic?**
- **Want this time spent doing things one to one, and geared to their individual needs, interests and abilities?**

There are many other possible benefits. Call us today to find out how we can help you.
